We're Ready

to Handle Your Custom
Manufacturing Needs from
Prototyping to Volume Production.

BENIKO is a 100% owned Nigerian steel fabrication company that manufactures a wide variety of highly versatile and competitive products such as; Cable Trays & Ladder, Electrical Enclosures, Shelving and Racking systems, Generator Skid base Tanks, sound Proof enclosures, Laser Cut building Additions using metals, and related products designed to be in compliance with IEC, NEMA, and NIS (Nigeria Industrial Standard) standards.

In addition to our core products, BENIKO also provides complete solutions including the design, supply, installation, and after-sales services with the help of a highly qualified team on complex projects that require specialized solutions. We are dedicated to meeting and exceeding industry standards in every product and project.

We Can Meet

your deadline.

Our 5000 M2 facility is designed for efficient handling of customer orders from raw materials to final shipment. With our advanced CNC technology, we can handle your manufacturing requirements, from prototype to low and high-volume production.

Come inside our plant and see our custom metal fabrication equipment, including Automated Cable Tray Roll forming Machine, CNC Plasma cutting, Fibre Laser cutting Machine, CNC Sheering Machine, CNC forming /Bending Machine, Automatic and Manual Powder Coating Plant, manual welding, assembly and finishing.

We work with metals that range in thickness from 0.5mm gauge up to 80mm thick.

Table of Content

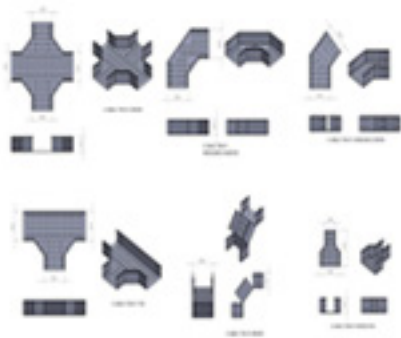

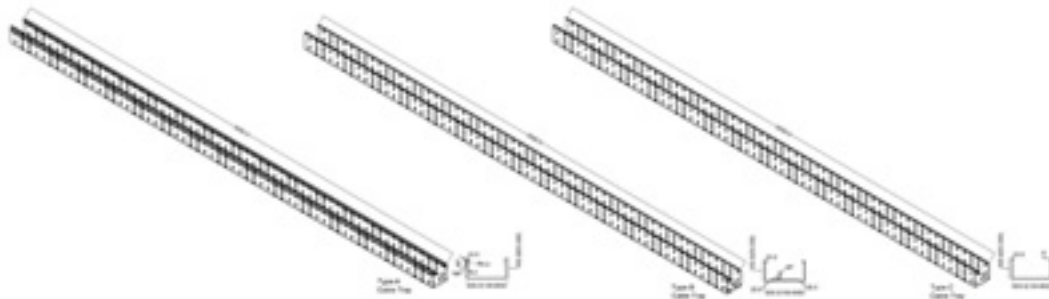

1. Laser Cutting Solution
2. Cable Trays and Ladder
3. Fabrication
4. Powder Coating Services

LASER CUTTING

We know and have what it takes to produce high quality, cost effective laser cut products. Our commitment to quality standards drives every project. Delivering full-service solutions for your custom machining and manufacturing needs. We offers a precise mix of Laser Cutting, CNC Routing, Plasma Cutting, and other valued services all under one roof.

CABLE TRAYS & LADDER

Cable Tray Cross

Cable Tray Riser

Cable Tray Tee

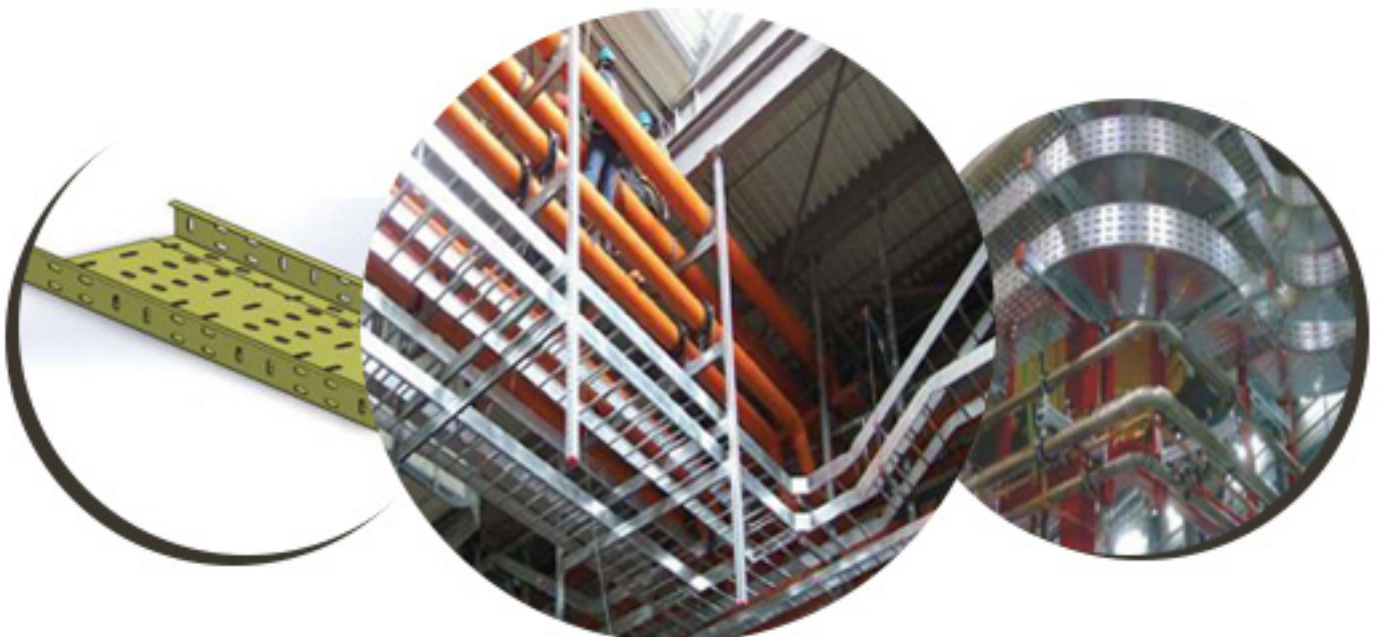

Cable Tray Reducer

Cable Tray 90deg Bend

Cable Tray 45deg Bend

FABRICATION

Beniko offers a complete range of fabrication capabilities from punching and forming to final finishing and welding

POWDER COATING

FACILITIES & EQUIPMENT

> LASER CUTTING

Sheet Size: Up to 5'x 10'
Flat Cutting: 0.875" Steel,
0.500" Stainless, 0.500"
Aluminum
Accuracy: +/- .001"

> CNC PRESS BRAKE BENDING MACHINE

CNC Turning: 4 Axis
Profile Turning: +/- .001"

> AUTOMATIC CABLE TRAY ROLL

CNC Machining: 40" x 20" x
25", with Integrated CNC 4th
Axis

> ELECTROSTATIC POWDER COATING MACHINE

CNC Turning: 4 Axis
Profile Turning: +/- .001"

> CNC TURRET PUNCHING MACHINE

Sheet Size: Up to 5'x 10'
Flat Cutting: 0.875" Steel,
0.500" Stainless, 0.500"
Aluminum
Accuracy: +/- .001"

> ROBOTIC PU GASKETING MACHINE WELDING

Tig Welding (AWS Certified)
Mig Welding (AWS Certified)
Spot Welding

> CAD

SOLIDWORKS
AUTO CAD
ONSHAPE

> CNC PLASMA CUTTING MACHINE

CNC Turning: 4 Axis
Profile Turning: +/- .001"

> INSPECTION/QUALITY

DEDICATED INSPECTION

> FACILITY

20,000 SQ. FT. FACILITY
3 TON & 5 TON FORK LIFT.
